

Hold On, Cyber Sleuth!

I see you're interested in my resume. As someone with years of experience in tech and cybersecurity marketing, I appreciate your initiative! However, downloading files can be a security risk, and we both know better.

Let's do this the secure way. Reach out to me directly via [[email](#)/[LinkedIn](#)] and we can discuss how my expertise can benefit your projects.

Stay cyber-smart, and let's connect soon!

Best,

Whitney Pettrey

Architect of Digital Resilience
